

W.J. KEATING LIMITED

SAILBOAT HARDWARE

NEW GOOSENECKS

Designed for aluminum spars with $\frac{1}{4}$ " diameter luff groove. Standard boom pin diameter is $\frac{1}{2}$ " ($\frac{3}{4}$ " or $\frac{5}{8}$ " diameter available on request.)

LUFF GROOVE ROLLER REEFING GOOSENECK

With eye for downhaul.

812-2500 Weight 7 oz.

With integral downhaul block for precise control of luff tension.

812-2510 Weight 7½ oz.

With 3-position tack fitting, no-lose toggle pin, and downhaul eye.

812-2520 Weight 8 oz.

With 3-position tack fitting, no-lose toggle pin, and integral downhaul block. Exclusive design puts downhaul force in the same plane as upward force from the bolt rope. Prevents gooseneck slide from jamming in track.

812-2530 Weight 8½ oz.

SLIDING GOOSENECK

Three tack positions. 4" slide. Features new spring loaded adjusting button for Sail Track. Weight 6 oz.

812-3279 $\frac{3}{8}$ " Track. 812-4279 $\frac{1}{4}$ " Track.

Same construction as RL-327-SP but with standard RL-25 Thumbscrew for Sail Track.

812-3270 $\frac{3}{8}$ " Track. 812-4270 $\frac{1}{4}$ " Track.

FIXED GOOSENECK

Strong. Stainless Steel plate $1\frac{1}{2}$ " x 3" for round or square masts. Complete with toggle pin. Weight 5 oz.

812-3280 Gooseneck.

ROLLER REEFING GOOSENECKS

812-3289 $\frac{1}{2}$ " diameter Stainless Boom Pin. $3\frac{1}{2}$ " long. Plate $1\frac{1}{2}$ " x 3".

812-3283 $\frac{1}{4}$ " diameter Stainless Boom Pin. $3\frac{1}{2}$ " long. Plate $1\frac{1}{2}$ " x 3".

812-3273 $\frac{1}{2}$ " diameter Stainless Boom Pin. $3\frac{1}{2}$ " long on slide for $\frac{1}{4}$ " track.

812-4273 same as RL-327-M but on slide for $\frac{1}{4}$ " track.

SWIVEL SLIDING ROLLER REEFING GOOSENECKS

Three tack positions. 4" slide. New spring loaded adjusting button for Sail Track. Weight 7 oz.

812-3299 $\frac{3}{8}$ " Track. RL-329 (with RL-25 Thumbscrew)

812-4299 $\frac{1}{4}$ " Track. RL-429 thumbscrew)

NOTE: To compensate for extra strain of boom vang, heavier clews and brackets are standard on all RACE-LITE goosenecks.
