

SAILBOAT HARDWARE

RL-344 CHAIN PLATE COVERS

Plate 2" long, 1" wide. Takes #6 Screws.

812-3441 — Slotted for $\frac{3}{4}$ " x $\frac{1}{4}$ " Chain Plates.

812-3442 — Slotted for 1" x $\frac{1}{8}$ " Chain Plates.

CHANNEL PLATE

Can be used for stay adjustment.

Cat. No.	812-3520
Length	4"
Width	$\frac{3}{8}$ "
Height	$\frac{1}{4}$ "
(3) bottom holes take	#8 Screws
Thickness	$\frac{1}{4}$ "

$\frac{1}{2}$ " TANG MATERIAL

To accommodate the needs of builders and sailors in fabricating tang assemblies, twelve stock lengths are offered, with a $\frac{3}{16}$ " hole in each end. Widths $\frac{3}{4}$ " and $\frac{1}{2}$ ". All $\frac{1}{8}$ " thick. Round edge stock. Electropolished.

JIBSTAY TANG ASSEMBLY

Single, compact assembly, consisting of jibstay tang, jib halyard tang, and loop for spinnaker halyard. Loop will take RL-305 or RL-355 blocks. Assembly fits recess of RL-364 Vee Strut Fitting, and secures with $\frac{1}{2}$ " throughbolts. Material $\frac{3}{4}$ " wide x $\frac{1}{4}$ " thick. 8" overall length. Weight 3 oz.

812-3640 Tang Assembly.

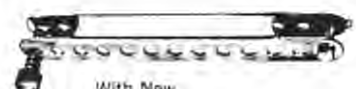

SHROUD ADJUSTERS

Especially useful on catamarans. 7 or 10 positions with Clevis pins in each end. Stainless Steel.

812-2452 10 positions, 7" long

812-2459 7 positions, 5" long

With New Captive Pin

SHROUD ADJUSTERS

Open construction for easy adjusting. 12 positions. Fits new RL-47 and -48 slides. With spring tension captive pin for quick release when taking down mast. No strain. No cotter pins. 5" long.

Cat. No.	812-3496
----------	----------

Standard (2) Clevis Pins

Same features as above, but without new captive pin. $\frac{3}{16}$ " diameter clevis pins.

Cat. No.	812-3490
