

W.J. KEATING LIMITED

BRASS AIR LINE COUPLINGS

POSITIVELY LOCKED

INSTANTLY CONNECTED

Couplings are airtight under all working pressures of 10 lbs. and above. Mechanically locked, they cannot be accidentally disconnected. A simple push and quarter-twist connects . . . and a slight pull on locking sleeve with a quarter-turn permits the male and female ends to be instantly separated. Couplings are available in hose or pipe ends from $\frac{1}{4}$ " to $1\frac{1}{4}$ ". Sizes from $\frac{1}{4}$ " to $\frac{3}{4}$ " are interchangeable, as are sizes 1" to $1\frac{1}{4}$ ". Couplings are furnished as standard in Brass, however sizes $\frac{3}{8}$ ", $\frac{1}{2}$ " and $\frac{3}{4}$ " are available in cadmium plated steel. Naval Brass is available on special quote in all sizes.
