

EYE HOOKS

K-1017

- The most complete line of eye and shank hooks — ¼ ton through 300 ton capacities.
- Available in three materials — carbon steel, alloy steel and bronze.
- Quenched and tempered.
- Rated capacity is permanently shown on each hook.

Eye Hook Dimensions with Latch Assembled

REVERSED EYE HOOKS — Reversed eye hooks also available with eye at right angle to plane of hook.

NOTE: Proof load twice safe working load. ¼ ton through 40 ton carbon — average straightening load (ultimate load) is five times safe working load. All bronze and alloy hooks — average straightening load (ultimate load) is four times safe working load.
